FCC'S PUBLIC SAFETY AND HOMELAND SECURITY BUREAU ANNOUNCES CONDITIONAL APPROVAL AND EXEMPTION OF CERTAIN ADVANCED ROBOTIC DEVICES FROM FCC COVERED LIST

WC Docket No. 18-89, ET Docket No. 21-232, EA Docket No. 21-233

The Federal Communications Commission's (FCC or Commission) Public Safety and Homeland Security Bureau (PSHSB or Bureau) maintains a list of equipment and services (Covered List) that have been determined to "pose an unacceptable risk to the national security of the United States or the security and safety of United States persons."¹ Pursuant to section 2 of the Secure and Trusted Communications Networks Act of 2019 (Secure Networks Act)² and sections 1.50002(a) and 1.50003 of the Commission's rules,³ PSHSB announces that the Department of War (DoW) has granted Conditional Approval for certain advanced robotic devices. Therefore, such devices are exempt from the Covered List.

Addition of Advanced Robotic Devices to the Covered List

On July 28, 2026, the Commission added to the Covered List "foreign-produced advanced robotic devices, except advanced robotic devices which have been granted a Conditional Approval by DoW."⁴ This addition was based on a National Security Determination from an Executive Branch interagency body, including several appropriate national security agencies, determining (among other things) that advanced robotic devices produced in a foreign country pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons.⁵

Conditional Approvals

The Executive Branch interagency body established a process by which entities producing certain covered equipment in foreign countries can request DoW to evaluate whether such devices do not pose unacceptable risks to national security and receive Conditional Approvals that would exempt such devices from the Covered List. The Commission has previously updated the Covered List to reflect the

For the current version of the Covered List, see Federal Communications Commission, *List of Equipment and Services Covered By Section 2 of The Secure Networks Act*, <https://www.fcc.gov/supplychain/coveredlist> (last updated Sept. 18, 2026).

⁴ FCC's *Public Safety and Homeland Security Bureau Announces Addition of Foreign-Produced Power Inverters and Advanced Robotic Devices to FCC Covered List*, WC Docket No. 18-89, Public Notice, DA 26-786 (July 28, 2026) (*Robotics Public Notice*).

Conditional Approvals that we have received from DoW exempting certain Uncrewed Aircraft Systems (UAS) and UAS critical components and routers from the Covered List.⁶

DoW has reviewed submissions and granted Conditional Approvals for the following devices:

- ANSCER Robotics' AR250, AR650, and AR1250 robotic platforms

Consistent with the National Security Determination, this exemption from the FCC's Covered List is "subject to ANSCER's continuous compliance with the onshoring plan outlined in its conditional approval application and pursuant to updated vetting of its products."⁷

The Covered List

We find that each of the Conditional Approvals constitutes "a specific determination" by DoW that such devices do not pose risks to U.S. national security.⁸ Therefore, we conclude that PSHSB is required to update the Covered List to exclude the equipment identified in these Conditional Approvals.

PSHSB takes this action under its authority and obligation to publish and maintain the Covered List. Sections 1.50002(a) and 1.50003 of the Commission's rules require PSHSB to publish the Covered List on the Commission's website, to maintain and update the Covered List, and to monitor the status of determinations.⁹

The Covered List and the list of devices that have received Conditional Approvals are attached as Appendices A and B to this Public Notice and can also be found on the Bureau's website at <https://www.fcc.gov/supplychain/coveredlist>.¹⁰

We note the continued availability of FCC staff guidance pursuant to sections 0.191 and 0.31(i) of the Commission's rules. Commission staff will provide guidance to TCBs, test labs, and equipment authorization applicants on the impact of these updates.

⁶ See, e.g., *FCC's Public Safety and Homeland Security Bureau Announces Conditional Approval of Certain Routers and Uncrewed Aircraft Systems (UAS) and Exemption from FCC Covered List*, WC Docket No. 18-89, Public Notice, DA-26-351 (April 14, 2026). The list of devices that have received Conditional Approvals can be found on the Bureau's website at <https://www.fcc.gov/supplychain/coveredlist>.

⁷ Additionally, failure to comply with the onshoring plan or the discovery of a false statement or misrepresentation in ANSCER's conditional approval application could result in termination of the conditional approval and return to the FCC's Covered List. Consistent with the National Security Determinations, for the Robotic Devices Conditional Approvals that do not reflect termination dates, such Conditional Approvals will remain effective indefinitely, so long as the entity that received Conditional Approval abides by the onshoring plan outlined in its Conditional Approval application and pursuant to updated vetting of the products.

⁸ See *Routers Public Notice*, Appx. C; *Second UAS Public Notice*, Appx. B.

⁹ 47 CFR §§ 1.50002(a), 1.50003. See *Supply Chain Second Report and Order*, 35 FCC Rcd at 14319, 14325, paras. 72, 77, 92.

¹⁰ The FCC website also contains a list of certain affiliates and subsidiaries of entities identified on the Covered List. The list of affiliates and subsidiaries does not constitute a comprehensive list of all entities that the Commission may find, upon further examination, to qualify as relevant subsidiaries or affiliates of entities on the Covered List. Those entities, whether or not they currently provide covered communications equipment or services, are subject to the Commission's prohibitions, such as the prohibition against obtaining authorizations for covered equipment. See *Reminder: Communications Equipment And Services On The Covered List Pose An Unacceptable Risk To National Security*, National Security Advisory No. 2025-01, DA 25-927, n.3 (PSHSB Oct. 14, 2025).
